Standard folding cranes CRV

Workshop crane that allows the removal and maintenance of a vehicle's engine so that the entire repair can be carried out in complete safety. MEGA CRV models are strong and robust cranes, specially designed for easy folding and unfolding. Equipped with two handles and a new tilting system with 4 wheels at the back and 2 at the front, very easy to handle and move, both with and without load. Compact design perfect for storing in small spaces. All models are equipped with polyamide wheels that facilitate manoeuvrability, do not damage the garage floor, do not rust and are very silent.

Safety overload valve.

Operation by the "dead man's" principle.

Hydraulic stroke limiter.

LCS Lowering Control System.

Greater robustness, stability and accessibility thanks to the double legs in the CRV10 and CRV20 models.

Swivel hydraulic unit for use in different positions. It incorporates knob with an extremely precise lowering control.

Crane swings on swivel wheels. Front wheels do not touch the ground when crane is not loaded. Maximum manoeuvrability. Patented.

Compact design is perfect for storage in small spaces. All models are equipped with polyamide wheels that facilitate manoeuvrability, do not damage the garage floor, do not rust and are very quiet.

AVAILABLE IN GREY

Tonnage indicator. Push button for automatic arm position change. Patented.

YouTube

Plastic protections that prevent possible damage to vehicles and serve as a safety warning due to their good visibility. The pedal facilitates manoeuvrability of the empty crane. Patented.
