# Part List with drawing for Pump body

The drawing shows an exploded view of a pump body assembly. The parts are numbered 1 through 39. The assembly includes a top seal gasket (1), a screw (2), a bearing (3), a connect flange (4), a body sleeve (5), and a screw (6). The main body consists of a block for high pressure (7) with a pipe (8) and pipe fitting (9). It also features a connect fitting (10), a connector 2 (high pressure) (11), and screw 2 (12). The pump head (low pressure) (13) includes a checking valve (14) and a regulating valve (15). A relief valve (low pressure) (16) is also present, along with fittings (17, 18) and an O ring (19). The central shaft assembly includes a bearing (20), sleeve (21), and pump head (high pressure) (22). The bottom section features screw 3 (23), a fliter press (24), a retaining ring (25), piston 1 (26), high pressure piston (27), piston 2 (28), deep groove ball bearing 2 (29), another retaining ring (30), eccentric sleeve (31), copper sleeve (32), bearing outer ring (33), eccentric block (34), multi-tooth gasket (35), nut (36), screw 4 (37), screw 5 (38), and a filter cover (39).
